SUMMARY OF THE LOCAL STAKEHOLDER CONSULTATION MEETING IN MALAWI CONDUCTED BETWEEN 14TH April 2025 AND 17TH APRIL 2025

INTRODUCTION

Effective Climate Solutions 1 FZCO ("ECCS1") and its affiliates are inviting stakeholders to review the outcomes of the Local Stakeholder Consultations that took place from 14th to 17th April 2025 in Lilongwe and Blantyre, Malawi. During the stakeholder meetings, Effective Climate Solutions 1 FZCO ("ECCS1") and its affiliates introduced its clean cookstove Voluntary Carbon Project Activities which entails dissemination of highly efficient improved cookstoves in Federal Republic of Nigeria. The Voluntary Project Activities (VPAs) will be included under the Gold Standard Programme of Activities (PoA), 'Effective Clean Cooking Biomass Solutions Program for Africa'

MINUTES OF THE MEETINGS:

Registration:

Participants arrived and were asked to sign the attendance list. Participants attending through Zoom Link for the Meeting registered online to access the meeting.

Welcome Remarks:

Participants in person were welcomed by ECC team leaders, for all the meetings. Introductions of the present participants were done for both the physical Meetings and the those who had joined online. The purpose of the meeting and the agenda were explained to the audience.

Project Presentation:

Effective Climate Solutions 1 FZCO ("ECCS1") and its affiliates started the presentation by explaining the project in detail; they presented the main goals of the program and its benefits for the local communities, as well as the ICS technology involved in the project. They also took time to remind the stakeholders about climate change and its causes, and they briefly explained the theory of the carbon credits, carbon markets and the development of carbon projects. ECCS1 and its appointed affiliates took some time to explain carefully to the stakeholders that the transfer of rights to the carbon credits generated using the stoves would be transferred to ECCS1 as the Coordinating Management Entity of the entire project. The carbon waiver was demonstrated to be on the strap that wraps the stove box, and the Paper Strip on the Opening of the Stove Box and by the end user cutting this strap/strip, they would be waiving their claims to any Verified Emission reductions generated using that stove. The purpose for this and the way in which ECCS1 would use the revenues from the sale of the carbon credits was explained clearly in the presentation during the LSC meeting.

Questions and answers session:

Stakeholders raised many questions about the relationship between ECC and ECCS1, the price and quality of the ICS, the expected project timeline, and the distribution plans. They expressed strong interest in community involvement, particularly the involvement of women. Stakeholders also emphasized the importance of ensuring that the stoves reach rural parts of Malawi at an affordable price, as well as how to engage organized women's groups in rural areas and enable them to pay in small monthly instalments. They were further interested in understanding the quality standards and project guidelines governing the implementation. All these questions and comments were fully and satisfactorily addressed by the project proponents.

Presentation of the Safeguarding Principles and Sustainability assessment of the project:

ECCS1 and its appointed affiliates explained the project's Safeguarding Principles and their assessment. The stakeholders were continuously consulted for feedback and comments, as an open discussion. The meeting continued with a presentation of the SDGs, and on the positive impacts of the project on a few specific SDGs. Participants agreed with the assessment and did not have further comments. ECCS1 and its appointed affiliates presented the grievance mechanism as well as how the sustainable development impacts will be monitored.

Closure of the meeting:

The evaluation forms were then distributed to the participants. The team expressed its appreciation to all participants who attended the meeting and who offered many constructive suggestions. The meeting closed with a demonstration with the Ecoa Char stoves.

COMMENTS RECEIVED DURING THE STAKEHOLDER MEETING

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/ No)?	Explanation (Why? How?)
M	Does ECC promote Commercial and institutional stoves, and will they be part of the project?	Yes	ECC does produce and distribute other types of stoves, including commercial and institutional. However currently we are focusing on the domestic stoves specifically ECOA Char.

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/ No)?	Explanation (Why? How?)
M	Are the stoves installed with a Serial number for monitoring	Yes	Every ECC stove have a Unique Serial number which is used to identify every stove. Upon purchase, the end user should register his/her details for traceability.
F	What is the cost of the Stove to the end users. Will the stove price be affordable to the target users which are low income households?	Yes	The subsidy of the end-user price will be made possible through carbon finance and will make the stove affordable.
F	Do the Charcoal stoves use the normal charcoal produced locally?	Yes	ECOA Char stove uses the normal charcoal produced by the locals across the country, however, other forms of charcoal such as charcoal briquettes can still be used with ECOA char stoves.
M	What is the lifespan of a ECOA Char? Can it be cleaned easily?	Yes	The expected lifespan of the ECOA Char is 7-10 years, but it also depends on if the user respects the mode of use and is performing proper maintenance as per ECC instruction. Yes, the stove can be cleaned easily. All the instructions are indicated in the user manual and communicated during the sales process.
M	How can we recognize a counterfeit from a real Jikokoa?	Yes	All ECC stoves come in their original box with a serial number and a warranty booklet ensuring the quality of the product and the after-sale

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/ No)?	Explanation (Why? How?)
			services. The ECOA Char stove warranty period is 1 year. In addition, all ECOA Char stoves have Unique Serial Number and are sold by authorized ECC Sales agent and promoters.
M	Are there plans for ECC to collaborate with the Government and other stakeholders to have a total shift from biomass stoves other cleaner stoves	Yes	ECC and ECCS1 will collaborate with the relevant government sectors and other stakeholders in the market to support transition to more clean fuels. By being part of the clean cooking environment in Malawi, ECC will stay up to date with the developments of the cooking sector and will participate in all discussions for transition to more cleaner stoves.
F	How will the stoves be repaired and how will be the process?	Yes	ECC and ECCS1 will be establishing repair stations across different regions. This will generate Decent Work thus, contributing to Sustainable Development Goals. Registered households with a warranty will have the repair within the warrant guidelines, hence all encouraged to register the stove upon Purchase.
M	Are there plans to extend the Burn Cookstoves to other Regions which are believed to be using	Yes	This Voluntary project of activity will cover 2 regions (Blantyre and Lilongwe) across Malawi for both Urban, Peri-Urban, however, they may opt to cover other regions in future

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/ No)?	Explanation (Why? How?)
	a lot of Charcoal and Firewood.		as defined in their strategic project boundaries guidelines.
M	Which actions is ECC implementing to raise awareness on the negative impacts of climate change?	Yes	ECC & ECCS1 are continuously working to provide information and awareness on the impacts of climate change. This is done in all segments of its operations through trainings, awareness and marketing campaigns, local stakeholders consultations and other means of reaching its main audience
F	ECOA Char uses charcoal which means that trees are cut down and this contributes to deforestation. How is this project different from others in terms of impacts on the environment?	Yes	ECOA Char uses at least 50% less than the traditional cookstoves, It is not yet the perfect solution but a step forward, with the long-term goal to replace non-renewable biomass by renewable one. The use of Improved Ecoa char stove means reduced deforestation and equally reduced Carbon Emissions in the atmosphere hence mitigating the impacts of climate change.
M	Apart from Distribution of Cookstoves, can BURN work on how to equally support the end users with reforestation activities which will help in fighting	Yes	ECC & ECCS1 are currently working on the development of side activities that could contribute to the restoration of forests, on which the community will be informed, once rolled out.

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/ No)?	Explanation (Why? How?)
	impacts of climate change		
F	Malawian communities typically have extended families, meaning that the average family size is more than five people. Will this stove be able to hold pots that are suitable for this family size?	Yes	The Ecoa Char is capable of cooking for 0–12 people; therefore, it is still ideal for such an extended family size.
M	What are the notable advantages and disadvantages of ECOA Char stoves?	Yes	The stove saves charcoal, reduces indoor air pollution, lowers health risks associated with indoor air pollution, and helps the user save time while cooking, among other benefits. There are no notable disadvantaged of a continuous use of ECOA Char stove.
F	Why are you only targeting urban and peri urban areas?	Yes	According to research conducted before the project implementation, it was established that the regions that use charcoal as their primary fuel the most are urban and peri-urban areas. To ensure the full impact is felt, it would be prudent for these charcoal stoves to be distributed in the regions where they are most needed — the urban and peri-urban areas.

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/ No)?	Explanation (Why? How?)
M	What are the measures being put in place to prevent double counting of emissions at the household level.	Yes	During distribution, the sales agents conduct pre-technology installation surveys to understand the different types of cookstoves used in each household. If a household already has an improved cookstove from another project developer, it is skipped and deemed ineligible for the ECOA Char installation.
F	What quality standards are adhered to during product development and manufacturing?	Yes	The following are the standards that ECC adheres to during product development and manufacturing: ISO 19867-1:2018 — for performance testing of the stoves. ISO 9001 — Quality Management System (QMS) for the overall company operations. ISO 14001 — Environmental Management System (EMS) for the overall company operations.
F	What procedures will you follow in monitoring and evaluation process to ensure the right information is relayed to the households?	Yes	ECC will use its Customer Experience team to communicate all project-related information to households. Specific contact details for the Customer Experience team will be provided to all end users, ensuring that any questions or concerns can be relayed swiftly.

SUMMARY OF THE ASSESSMENT OF SAFEGUARDING PRINCIPLES

It was explained during the meeting that the aim of the project is to disseminate highly efficient clean cookstoves that would reduce the amount of charcoal used by households. By this, the project would have positive social, economic, and environmental impacts. The project will follow all safeguarding principles as described in the table below

Safeguarding Principle	Assessment
Human Rights	The Project respects internationally proclaimed human rights and is not complicit in violence or human rights abuses of any kind as defined in the Universal Declaration of Human Rights. The project will not discriminate with regards to participation and inclusion.
Gender Equality and Women's Rights	The project activity does not endorse any form of discrimination based on gender. The project will take into account gender roles and the abilities of women and men to participate in the decision/design of the project activity. It will be ensured that both women/women association and men will be invited to the stakeholder consultation so that a representative number of stakeholders of both genders will be present at the local stakeholder consultation meeting.
Community Health, Safety and Working Conditions	The project will not expose the community to increased health risks and is not adversely affecting the health of the workers and the community.
Cultural Heritage, Indigenous Peoples, Displacement and Resettlement	The project activity will not have any negative impact on cultural heritage, indigenous people nor will it displace or resettle people.
Corruption	The Project doesn't involve, be complicit in or inadvertently contribute to or reinforce corruption or corrupt Projects.
Economic Impacts	The project will respect all labour rights. No negative economic consequences are expected from the project activity. On the contrary, it is expected that the project contributes to sustainable economic growth.

Climate and Energy	The project will reduce GHG emissions as will be monitored and verified in line with the carbon standard requirements
Water	The project will not affect natural water patterns/flows or cause any additional erosion and/or water body instability.
Environment, ecology and land use	The project will not have any negative impact on the environment and ecology and will not involve the use of land and soil for production of crops or other products. The release of particulate matters and carbon monoxide are significantly reduced by the introduction of improved (more efficient) cookstoves.

The assessment process was interactive and participative. In the, stakeholders fully agreed with the assessment done by BURN.

SUMMARY OF SUSTAINABLILITY ASSESSMENT
This Project is to contribute to different Sustainable Development Goals (SDGs) in the following way:

SDGs	**Targets**	**Proposed monitoring Indicator**
	1.4 By 2030, ensure that all men and women, the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance.	Monetary savings related to the purchase of charcoal Surveys will be carried out to check on the money spent for purchasing charcoal in the project scenario compared to the baseline scenario.

SDGs	**Targets**	**Proposed monitoring Indicator**
3 GOOD HEALTH AND WELL-BEING	3.9 By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination.	Perceived air quality Surveys will be carried out to check on the pollution-related inconveniences (such as smoke levels, itchy eyes and breathing problems) in the project scenario compared to the baseline scenario.
4 QUALITY EDUCATION	4.3 By 2030, substantially increase opportunities to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	Number of people receiving skill development training
5 GENDER EQUALITY	5.4 By 2030, Achieve gender equality and empower all women and girls	The design efficiencies of improved cookstoves allow for shorter mealtimes and reduce the frequency of fuel purchases. This then creates time savings, particularly for women and girls, who provide unrecognized labor associated with fuel collection and meal preparation, creating time that can be used for constructive activities of this group of beneficences training, or community engagement.
7 AFFORDABLE AND CLEAN ENERGY	7.1 By 2030, ensure universal access to affordable, reliable, and modern energy services. 7.B By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy	Number of sold/distributed ICS in use The total number of ICS sold/distributed is summed up in the database

SDGs	Targets	Proposed monitoring Indicator
	services for all in developing countries, least developed countries, small island developing States, and land-locked developing countries, in accordance with their respective programmes of support	
	8.5 By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value.	Number of jobs created
	13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning.	CO_2 emission reductions achieved by the project activity
	15.3 By 2030, Protect, restore, and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss	**Reduction in firewood and charcoal.** Surveys and monitoring of firewood consumption trends in project households compared to baseline households to assess impact on forest resources.

Stakeholders' sustainable development assessment was fully in line with ECC own assessment. In terms of the monitoring of the sustainable development indicators, the stakeholders did not have other comments or suggestions related

to the monitoring of the sustainable development indicators. They agreed to proceed with the indicators selected by ECC.

CONTACT US:
If you wish to get in touch with the project for more information, please contact us at:

	Method Chosen (include all known details e.g. location of book, phone, number, identity of mediator)	**Justification of Choice (best practice)**
Continuous Input / Grievance Expression Process Book (mandatory)	Burn Manufacturing Malawi Limited 4th Floor Unit 1 NBS Building, Corner Victoria Avenue, Chilembwe Road P.O. Box 2039,Blantyre-Malawi	The stakeholders were pleased to have an input book opened at the office in Malawi. Complaints or any other concerns can be stated and will be filed directly at the head office.
GS Contact (mandatory)	help@goldstandard.org	Mandatory for Gold Standard Projects
Telephone access (optional)	+265 111 89 99 85	The phone number of Malawi office of ECC will be made known to all project beneficiaries
Internet/email access (optional)	BURN: info@burnmfg.com Customercare.ng@burnmfg.com	BURN's email address will be made known to all project beneficiaries

CHIDULE CHA ZOKAMBIRANA CHA MISOKHANO YA ANTHU OKHUZIDWA YOMWE INACHITIKA 14TH April 2025 AND 17TH APRIL 2025

CHIYAMBI

Kampani ya Effective Climate Solutions 1 FZCO ("ECS") yomwe ndi bungwe lolumikiza ndi kuyang'anira (CME) zochitika za pulojeketi ya mbaula za Ecoa mogwirizana ndi ECOA Climate Capital (ECC) omwe akuyendetsa pulojekiti iyi akuitana onse okhuzidwa kuti awunike zotsatira za zokambirana zomwe zinachitika ku misokhano ya anthu okhuzidwa yomwe inachitika kuyambira pa 14 mpaka 17 April 2025 ku Lilongwe ndi Blantyre, Malawi. Panthawi ya misonkhano imeneyi, Effective Climate Solutions 1 FZCO ("ECCS1") ndi mabungwe ogwirizana nayo anabweretsa pulojeketi ya kuphika kwa makono ndi mwaukhondo yomwe ndi yogawa mbaula m'dziko la Malawi. Ntchito za mu Pulojekiti iyi (VPAs) zili pansi pa zochitika za Gold Standard (PoA); Njira Zabwino Zophikira Pogwiritsa Ntchito Nkhuni/Makala mu Africa”

ZOLEMBEDWA ZA MISONKHANO:

Kalembela:

Oitanidwa atafika anauzidwa kuti alembetse maina mukalembera wa msokhano. Anthu omwe anatenga nawo mbali podzera pa zoom analembetsa pomwe amalowa mu msokhano.

Mawu Oyambirira:

Anthu oitanidwa analandilidwa ndi ogwira ntchito ku Eco Climate Solutions mu misokhano yonse. Kudziwana kunachitika kwa anthu omwe anafika ku msokhano komanso kwa amene anatenga nawo mbali pa zoom. Cholinga cha msokhano chinakambidwa kwa anthu omwe anafika.

Chiwonetsero Cha Pulojeketi:

Ogwira ntchito ku ECC anayambitsa msokhano ndipo anawafotokozera mwatsatane tsatane mmene pulojeketi ingayendere. Anakambanso kuti kampani ya Effective Climate Solutions 1 FZCO (“ECS”) ndi yomwe ikuyang’anira zochitika za pulojeketi mogwirizana ndi kampani ya ECOA Climate capital (ECC) ngati yomwe ikuyendetsa ntchito za pulojeketi, cholinga cha pulogalamu ndi ubwino wake ubwino kwa anthu m’mdera, komanso za ukadaulo womwe waikidwa mu mbaula zimenezi.

Anatenganso nthawi kukumbutsa oitanidwa za kusitha kwa nyengo ndi zotsatira zake. Anafotokonzanso mwachidule za thandizo lomwe limabwera posamala chilengedwe, m’mene thandizoli limabwerera, ndiponso m’mene pulojeketi imachitira kuti ipeze thandizoli. Ogwira ntchito ku ECC anafotokonzanso mwatsatane kwa onse okhuzidwa m’mene umwini wa nthandizo lobwera posamala chilengedwe limapitira ku kampaniyi . Anawasonyeza za ka ulusi komwe

kamakhala pa mbaula komwe kamadulidwa kuvomereza kuti umwini wa thandizoli lapita ku kampaniyi. Cholinga chotengera umwini wa thandizoli chinafotokozeredwa komanso m'mene thandizoli limagwirira ntchito. .

Nthawi ya Mafunso ndi Mayakho:

Okhuzidwa nafunsa mafunso patatha kufotokoza za pulojeketi imeneyi. Anafunsa za ubale umene uli pakati pa kampani ya ECC and ECO, mtengo ndi upangiri wa mbaula zamakono zimenezi, nthawi yomwe pulojeketi igwire ntchito zake, ndi ndondomeko za m'mene mbaulazi zingagawidwire. Anasonyezanso chidwi pa zochitika za pulojeketiyi, makamaka amayi. Oitanidwa anatsindikanso zaubwino wowonetsetsa kuti mbaulazi zikupezeka ku madera akumudzi pa mtengo wosaboola mthumba, komanso kuganizira amayi omwe ali mu magulu kupeza mbaula zimenezi polipira mwa pang'ono pang'ono Mafunso onse ndi ndemanga zawo zinayakhidwa bwino ndi mogwira mtima.

Chiwonetsero cha Mfundo Zoteteza ndi Kafukufuku wa Kukhazikika mu Pulojekitiyi

Ogwira ntchito ku ECC anafotokonzanso za mfundo zoteteza zomwe zimatsatidwa komanso m'mene angazachitire kawuniwuni wa mfundo zimenezi. Okhuzidwa anauzidwanso kuti pali mwayi wopitiriza a kupereka ndemanga zawo, komanso kukambirana pa zochitika za pulogalamuyi kudzera ku ofesi yawo. Msokhano unapitiliranso ndi kuwafotokozera za mfundo zachitukuko zokhazikika ndi m'mene pulojeketi imeneyi ithandizire kulimbikitsa zina za mfundo zimenezi. Okhuzidwa anakhutisidwa ndi kuwunikira kwa mfundo zimenezi ndipo panalibe mafunso ena ali wonse. Ogwira ntchito ku ECC anakambanso za m'mene madando okhuza ntchito za pulojeketi aziperekeredwa ndi m'mene aziwunikira mfundo za chitukuko zokhazikika zimenezi.

Kutseka Msokhano:

Ma pepala owunikira m'mene msokhano unayendera nagawidwa kwa onse oitanidwa. Anthu anakhutisidwa ndi m'mene msokhano unayendera ndipo anapeleka ndemanga zabwino. Polamiza penipeni pa msokhano panali chionetsero cha mbaula zogwiritsa ntchito makala ya Ecoa.

F	Kodi njira zanji zingaikidwe poyang'anira ndi kuwunikira kuti unthenga woyenera ukupititsidwa ku makomo.	Yes	ECC izagwiritsa ntchito akaswiri opereka uthenga kwa makasitomala ake poonetsetsa kuti mafunso kapena madando akuyakhidwa mwansanga.

MFUNDO MWACHIDULE ZA KUTETEZA

Pa msokhano panakambidwa kuti cholinga cha pulojeketi ndi kuwafotokozera anthu za mbaula za makono zomwe ndi za ukhondo komanso zimagwiritsa ntchito makala ochepa pakhomo. Motero, pulojeketi izabweretsa ubwino pa chikhalidwe, chuma, ndi chilengedwe. Njira izi zoteteza zinakambidwa mwatchutchu;

Mfundo Yoteteza	Kuwunikira
Ufulu wa Chibadwidwe	Polojeketiyi imalemekeza ufulu wa chibadwidwe ovemelekezeka m'maiko onse ndipo simalekelera pa nkhani yopwanya ufulu wachibadwidwe kapena khanza za mtundu wina uliwonse motsatana ndi

	malumbiro a maiko olimbikitsa ufulu wachibadwidwe. Polojeketiyi sizachita tsankho kwa aliyense ndipo izapeleka mwayi woti aliyense atenge nawo mbali pa zochitika zake.
Kusasankhana pakati pa Amayi ndi Abambo ndi ufulu wa Amayi	Polojeketiyi sikuvomereza mchitidwe wina uliwonse osalana chifukwa chakuti ndi amayi kapena abambo. Polojeketiyi izaganizira ntchito komanso kuthekera kwa amayi ndi abambo potenga nawo mbali muziganizo kapena kupanga zochitika za m'polojeketi. Izaonetsetsa kuti magulu onse a amayi ndi abambo akuitanidwa ku mikumano/msonkhano wa anthu okhuzidwa mu polojeketiyi.
Umoyo wa M'mudzi, Chitetezo ndi Ufulu wa Ogwira Ntchito	Polojeketi sizapeleka chiopsezo chili chonse choononga moyo ku madera amene kuzachitike ntchito zake kapena kwa ogwira ntchito ake.
Mbiri ya Chikhalidwe, Mbadwa za M'dera, Kuthamangitsidwa kapena kusamutsidwa.	Polojeketiyi ilibe zotsatira zoyipa ku Mbiri ya Chikhalidwe, Mbadwa za M'dera, Kuthamangitsidwa kapena kusamutsidwa kwa anthu.
Ziphuphu	Polojeketiyi simatenga nawo mbali kapena kulimbikitsa ziphuphu pogwira ntchito zake.
Zotsatira za Chuma	Polojeketiyi izalemekeza ufulu wa anthu ogwira ntchito. Palibe zoyipa zimene zingabwere pa za chuma kudzera ku ntchito zake. Chomwe chikuyembekezeka ndi kuthandiza kukweza chuma chokhazikika.
Nyengo ndi Mphamvu Za Chilengedwe	Polojeketiyi ichepetsa utsi woipa omwe umaononga chilengedwe ndipo izaonetsetsa kuti zochitika zake zikukwaniritsa ndondomeko ya Carbon Standard.
Madzi	Polojeketiyi sizaonga madzi, kusokoneza m'mene madzi amayendera, komanso kupangitsa kukokoloka kwa nthaka.
Zachilengedwe, ndi kagwiritsidwe ka malo	Polojeketiyi ilibe kuyipa kulikonse poononga chilengedwe ndipo sizatenga malo kumapangira ulimi. Kutulutsa utsi woipa woononga chilengedwe

	kuzachepa kwambiri chifukwa chogwiritsa ntchito mbaula za makono.

Kafukufuku anachitika movetsetsana komanso onse kutenga nawo mbali. Okhuzidwa nagwirizana ndi mmene kafukufuku nachitikira ndi kampani ya BURN.

CHIDULE CHA KAFUKUFUKU WA MFUNDO ZA CHITUKUKO CHOKHAZIKIKA.

Pulojeketi imeneyi izathandizira mfundo za chitukuko chokhazikika motere:

Mfundo ya Chitukuko Chokhazikika	**Cholinga**	**Njira zowunikira Chizindikiro**
	1.4 Kuwonetsetsa kuti abambo ndi amayi makamaka osauka ndi amene ali ndi mwayi ofanana pakapezedwe ka chuma ndi zinthu zina zofunika pa moyo wao monga; malo, katundu, luso la makono loyenera ndi chuma monga mwayi wa ngongole zing’onozing’ono pofika mchaka cha 2030.	Kusunga ndalama zomwe timagwiritsa ntchito pogula makala Kupanga kafukufuku wa chikhalidwe cha anthu omwe akugwiritsa ntchito mbaula kuti tipeze ndalama zomwe akugwiritsira ntchito pogulira makala kusiyana ndi momwe zinaliri pa chiyambi.

3 GOOD HEALTH AND WELL-BEING	3.9 Kuchepetsa imfa ndi matenda zomwe zimabwera chifukwa cha mankhwala owopsa ndi kuwonongeka kwa mpweya, madzi ndi nthaka pofika m'chaka cha 2030	Kukhala ndi pweya wabwino Kupanga kafukufuku wa chikhalidwe cha anthu omwe akugwiritsa ntchito mbaula kuti tipeze ngati pali zisikonezo zili zonse chifukwa chakuipitsidwa kwa mpweya (kuchuluka kwa utsi, kuyabwa kwa maso, komanso kuvutika popuma) kusiyana ndi momwe zinaliri pa chiyambi.
4 QUALITY EDUCATION	4.3 Kuwonetsetsa kuti amayi ndi abambo akupeza mwayi wofanana komanso osavuta pamaphunziro apamwamba aluso la ntchito zamanja ndi sukulu za ukachenjede pofika mchaka 2030.	Chiwerengero cha anthu omwe alandira maphunziro a luso kuti azidalire pawokha.
5 GENDER EQUALITY	5.4Kuthetsa mchitidwe osala amayi ndi atsikana pena pali ponse.	Luso la mbaula zimenezi zizalora kuti kuphika kuzitenga nthawi yochepa komanso kugwiritsa ntchito makala ochepa. Izi zizapangitsa kuti amayi/ atsikana kukhala nthawi yopuma komanso ktenga nawo mbali pazochitika za mdera.

	7.1 Kuwonetsetsa kuti anthu onse akupeza magetsi odalirika, okhazikika, amakono ndi otsika mtengo pofika mchaka cha 2030. 7.B Kukuza ntchito zomangamanga ndi kukweza luso loperekera ntchito zamakono, zokhazikika zamagetsi ku maiko okwera kumene makamaka osauka potsatira ndondomeko zothandizira ntchito zamagetsi pofika mchaka 2030.	Chiwerengero cha mbaula za makono zomwe sagulitsidwa kapena zikugwiritsidwa ntchito.
	8.5Kupezetsa amayi, abambo, achinyamata ndi anthu aulumali ntchito zokhazikika, ndikuwonetsetsa kuti akulandira malipiro ofanana molingana ndi ntchito zimene akugwira pofika mchaka cha 2030	Chiwerengero cha ntchito zomwe zalembedwa
	13.3 Kulimbikitsa kuphunzitsa ndi kudziwitsa anthu ndi mabungwe kuti akhale ndi kuthekera kolimbana ndi ziopsyezo zomwe zimabwera chifukwa	Kuchepa kwa utsi woonjezera kutentha

	cha kusintha kwa nyengo.	
	15.3 Kuthana ndi vuto la chipululu, kubwezeretsa nthaka yoguga kuphatikizapo malo amene apanga chipululu okhudzidwa ndi kusowa kwa mvula ndi madzi osefukira polimbikitsa kuthetsa kuwonongeka kwa nthaka padziko lonse pofika mchaka cha 2030.	**Reduction in firewood and charcoal.** Surveys and monitoring of firewood consumption trends in project households compared to baseline households to assess impact on forest resources.

Kafukufuku wa chitukuko chokhazikika wunachitidwa ndi mogwirizana ndi kafukufuku wa ECC. Pokhudza kuwunika zizindikiro za chitukuko chokhazikika, anthu okhudzidwa analibe ndemanga zina kapena maganizo okhudza kuunika kwa zizindikiro za chitukuko chokhazikika. Anagwirizana kuti apitirize ndi zizindikiro zomwe zinasankhidwa ndi ECC.

KULUMIKIZANA:

Ngati mukufuna kutipeza kuti mudziwe zambiri, mungalumikizane nafe munjira izi;

	Njira Yosakhidwa	Cholinga chosakha (njira yabwino)
Kupereka maganizo/madando mu bukhu	Burn Manufacturing Malawi Limited 4th Floor Unit 1 NBS Building,	Okhuzidwa anali osangalala kuti buku la madando lizipezeka ku ofesi ya kumalawi. Maganizo/Madando awo
